

**Grade 11 March 24, 2020**

Good day,

Hope you are all well. I have received notification from administration that I am to refrain from posting any new material for students until after April 5th. You are supposed to use the Learn at Home site provided by the Ministry of Education and/or resources provided on the board website to help you stay occupied and learning during this time. There are some great resources available. We will update on how school will look after April 5th as we figure it out.

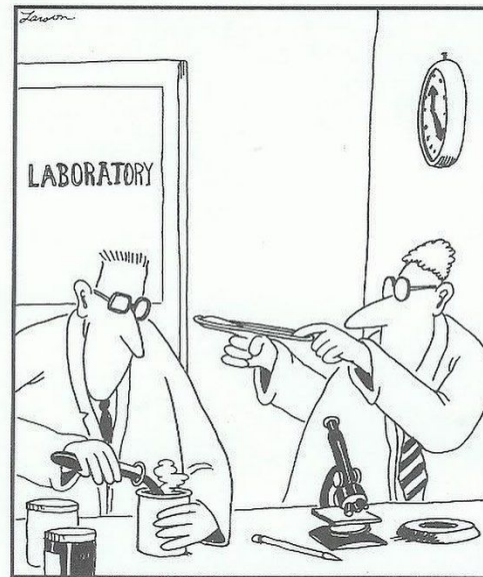

However, to maintain classroom contact I will still post a short note of encouragement everyday and a trivia question to keep you and I both engaged. As well, keep working on your Vector Assignments, they were assigned beforehand. They are due this week so try to get them in. Any questions feel free to email me. Another great resource is your textbook. I highly recommend Chapter 4 which starts on pg 118.

Sorry for any confusion this may have caused but we are all getting information as it is available.

Today's trivia question is in the form of a rebus. There is a saying hidden in the box. First person to email me the solution gets the bonus point. No one email the solution yesterday which was "Which bones are human babies born without?" The answer was kneecaps. Hopefully, someone gets today's.

**KNEE  
UR FULL OF**

Miss T.

On Oct. 23, 1927, three days after its invention, the first rubber band is tested.

**As well could  
Riley, Jeffrey  
and Craig get in  
touch I have  
extra  
instructions for  
you!**
