

Grade 11 March 30, 2020

Happy Monday,

Hope you are all well and keeping occupied.

Keep working on your Vector Assignments, they were assigned beforehand. They were due last week but I still have a number outstanding. Share the solution with me either via email or google docs. If you take photos make sure they are clear. Any questions feel free to email me. Get these done. They are part of your midterm mark.

Friday's trivia answer was "An eon is 1 billion years". Ethan got it!

Today's trivia question is "What is the Easternmost point on the North American continent?" First person to email me the correct answer gets today's bonus mark.

Stay safe and healthy. Check back tomorrow.

Miss T.
