

Grade 11 March 31, 2020

Tuesday and the end of March are here. Hoping April is less traumatic.

Hope you are all well and keeping occupied.

Keep working on your Vector Assignments, they were assigned beforehand. They were due last week but I still have a number outstanding. Share the solution with me either via email or google docs. If you take photos make sure they are clear. Any questions feel free to email me. Get these done. They are part of your midterm mark.

In addition, if you want to get a jump on next weeks actual work read pg 151-173 about forces.

Yesterday's trivia answer was "Cape Spear". Katelyn got it!

Today's trivia question is "Diamonds are made up almost entirely of what element?" First person to email me the correct answer gets today's bonus mark.

Stay safe and healthy. Check back tomorrow.

Miss T.
